Stanford, Calif.

Dear Josh and Esther,

Thanks to your kindness in various ways - including the provision of sumptuous quarters for our overnight accommodation - we had an extremely enjoyable and a most profitable visit to Stanford. I think Ben was delighted to have a chance to look around there, and to meet you again: he also made the most of our subsequent 2-day visit at Berkeley. He's a wonderful chap, and I hope that whatever turns out for him will be for the best.

I enclose a couple of paintings from my carret: I trust they will meet with your approval.

With best wishes:

Sincerely,

Levin

P.S. I sent off the typescript copy of the index to the algal physiology and biochemistry book - 123 pp!
